

DELHI PUBLIC SCHOOL
VISAKHAPATNAM STEEL PLANT
REVISION ASSIGNMENT 2019 - 20

Class: III

Subject: ENGLISH

I. Read the following passage and answer the questions:

The crow is a common bird. It is found all over the world. The house crow is black in colour with a grey neck. The jungle crow is black all over. The crow can eat anything. But it likes to eat the food man eats. It is an intelligent and clever bird. But it is also a thief. It is fond of stealing food. It builds its nest in the branches of tall trees. The nest looks ugly from outside. But inside it is neat and cosy. The mother crow lays four or five eggs at a time. The eggs are bluish green in colour. They lay brown marks on them. When baby crows come out of the eggs, both parents look after them.

- Q1. What is the difference between the house crow and the jungle crow?
Q2. List two characters of a crow?
Q3. Choose the right answer: The nest of a crow looks ugly from outside but it is _____ inside:
