

DELHI PUBLIC SCHOOL VISAKHAPATNAM ASSIGNMENT

October - November 2024-25

Class: III

Date of Submission: on or before 07.12.2024

Subject: ENGLISH

I. Read the passage given below and answer the questions that follow.

Every creature needs to rest. Just like eating, sleep is also necessary for survival. Little babies, dogs, cats, bears, grandparents, moms, dads and hippos in the jungle – they all sleep!!! Sleep gives your body a rest and allows it to prepare for the next day. It's like giving your body a mini-vacation. Sleep also gives your brain a chance to sort things out. The amount of sleep a person needs depends a lot on his or her age. Babies sleep a lot – about 14 to 15 hours a day! But many older people only need about 7 or 8 hours of sleep each night. Most kids between the ages of 5 and 12 years old need 10 to 11 hours of sleep. Some kids might need more and some need less. It depends on the kid. If you don't sleep for one night, you will become lazy and angry. If you don't sleep for two nights, you will not be able to think. If you do not sleep for more than five nights, you will start seeing things that are not actually there. Therefore, you should sleep well every night.

- a) Mention two things from the passage that are necessary for survival.
- b) What does sleep give your body?
- c) How many hours of sleep do kids between the ages of 5 and 12 need?
- d) Mention the opposites of the following words given in the passage:
active x _____ b. calm x _____
- e) Complete the sentence:
_____ gives your _____ a chance to sort things out.

II. Unscramble the words to make meaningful sentences.
