

DELHI PUBLIC SCHOOL VISAKHAPATNAM ASSIGNMENT

Annual Examination Revision 2025-26

Class: V

Date of Submission: on or before 09.02.2026

Subject: ENGLISH

I. Read the passage given below.

In the town of Greenfield, many people lived in apartments and had no space to grow plants. To solve this problem, the town council started a community garden project on an empty piece of land near the library. People of all ages were invited to take part in the project. Every Saturday morning, volunteers gathered to plant vegetables, water the plants, and remove weeds. The garden soon began to grow tomatoes, carrots, spinach and herbs. Children learned how food is grown, while adults enjoyed working together and sharing ideas. The vegetables grown in the garden were shared among the volunteers, and extra produce was donated to a nearby shelter. The project helped bring people closer and made the town greener and healthier.

On the basis of your understanding of the passage answer the questions.

1. Why was the community garden started?
 - a. To build a new library
 - b. To provide space for people to grow plants
 - c. To sell vegetables for profit
 - d. To attract tourists
2. Where was the community garden located?
 - a. Behind the shelter
 - b. Near the school

Flavours	Vanilla	Chocolate	Mango	Strawberry
Children	10	8	5	7

Draw a bar graph using appropriate scale.

14. Case study:
Amar is a good footballer. He practices 1 h 45 min everyday morning and 2 h 20 min every evening.
 - i) Convert 1 h 45 min to hours.
 - i) How many minutes does he spend in football practice everyday?
 - ii) How many more minutes does he spend in practice in the evening than in the morning?

Subject: SCIENCE

A. Multiple Choice Questions

1. Which disease can spread through dirty water?
 - a) Tuberculosis
 - b) Cholera
 - c) Influenza
 - d) Measles
2. Which force helps a stretched rubber band return to its original shape?
 - a) Magnetic force
 - b) Elastic force
 - c) Gravitational force
 - d) Frictional force
3. An object will float in water if its density is _____ than water.
 - a) greater
 - b) equal
 - c) less
 - d) double
4. Which method is used to kill germs in drinking water?
 - a) Sedimentation
 - b) Filtration
 - c) Chlorination
 - d) Evaporation
5. Which of the following helps in stopping bleeding from a wound?
 - a) Bandage
 - b) Thermometer
 - c) Scale
 - d) Compass
6. The force that slows down a moving bicycle is
 - a) magnetic force
 - b) friction
 - c) elastic force
 - d) muscular force
7. Which process is used to remove insoluble impurities from water?
 - a) evaporation
 - b) filtration
 - c) condensation
 - d) freezing
8. The moon completes one revolution around the Earth in about
 - a) 7 days
 - b) 15 days
 - c) 28 days
 - d) 365 days
9. Which gas is essential for burning?
 - a) nitrogen
 - b) carbon dioxide
 - c) oxygen
 - d) hydrogen

10. Which of the following is a natural calamity?
 a) traffic accident b) earthquake
 c) road construction d) firecracker bursting
11. The device used to lift heavy loads with less effort is called a
 a) wedge b) pulley c) screw d) nut

B. Fill in the Blanks

12. The movement of the Earth around the Sun is called _____.
13. The force that pulls objects towards the Earth is called _____ force.
14. The phase of the Moon when it is completely bright is called _____.
15. A chain showing energy transfer between living organisms is called a _____.
